Penyunting Amerta Nutrition menyampaikan penghargaan setinggi-tingginya dan terima kasih kepada para mitra bebestari atas bantuan review yang diberikan

AUTHOR GUIDELINES

Amerta Nutrition only publishes original articles and literature reviews related to all nutritional disciplines. Articles will be considered for publication on condition that they have not been published or sent to other journals. Articles can be classified as research reports or literature reviews that can help readers obtain information on nutritional issues as well as various studies in nutrition science. The article should also support the advancement of science, education, and the development of nutritional practices. The manuscript shall be published in Bahasa Indonesia or English, therefore the author shall ensure that the manuscript is collected in accordance with Indonesian or English writing principles and there is no error in the wording. The length of the manuscript should also be proportional. The manuscript is submitted in softcopy via e-mail. The script should be typed using MS Word program, Calibri font, 14 pt size for title, and 11 pt for other than the title, double-space with left, right, up, and bottom margin of 2.5 cm. Titles are typed in bold, while Latin names are typed in italic. Article length can not be less than 10 pages and not more than 14 pages. The author must also follow the guidelines for the preparation of manuscripts according to the type of script to be published.

1. WRITING FORMAT RESEARCH REPORT

- **The title** should be short, specific, and informative. The maximum title consists of 20 words (not exceeding 80 letters and spaces) with capital letters on the first letter of each word according to the Enhanced Spelling and center location. Titles can be written in English or Indonesian.
- **Author Name** includes the full name of the author, affiliate author, affiliate name, and address, and is written in sequence using the number symbol (1).

Example:

Farapti¹, Qonita Rachmah², Emalia Rhitmayanti³, Mahmud Aditya Rifqi⁴

¹ Departemen Gizi Kesehatan
Fakultas Kesehatan Masyarakat – Universitas Airlangga
Indonesia

² Department of Nutrition and Dietetics
Institute of Nutrition – Mahidol University
Thailand

³ Departemen Gizi Kesehatan
Fakultas Kedokteran – Universitas Brawijaya
Indonesia

⁴ Departemen Gizi Masyarakat
Fakultas Ekologi Manusia–Institut Pertanian Bogor
Indonesia

- **Abstracts** should be structured with short descriptions (containing no more than 250 words, formatted in singlespace, and only one paragraph). The abstract should be written in English and Indonesian. Footnotes, references, and abbreviations are not used in abstracts. Abstracts in the research report should consist of "Background:", "Purpose:", "Method:", "Result:" and "Conclusion:" typed in bold in one paragraph.
- **Keywords** contain 3-5 words and / or phrases and should be written underneath the abstract. Keywords must be written in English and Bahasa Indonesia with words or sentences in accordance with scientific standards.
- **The correspondent author** contains the details of the author data in charge with the detailed address and e-mail (consisting of full name, name of institution, address, telephone number, fax number, and email address).

- **Introduction** consists of background issues, problem formulation, research objectives and benefits.
- **Methods** contain clear descriptions of the tools and materials used and research schemes and methods useful for other researchers to replicate and check validity if necessary. Reference should be given to the method used. Studies that use animal or human subjects should include evidence of applicable ethical research.
- **Acknowledgments** for all research contributors, if any, should be stated briefly on the manuscript before reference.
- **References** should be arranged in accordance with the **Nature system**. Journal managers advise authors to use **Mendeley-specific app** or other reference apps (for example: Endnote, Zotero, RefWorks). References should be numbered consecutively in the order in which the citation is first mentioned in the text, written with superscript and placed at the end of the text in numerical rather than in alphabetical order. Reference must be valid, 80% comes from publications in the last 10 years and contains at least 40% of primary references (from journals, theses, dissertations, and patent documents). Unpublished sources, such as a preparatory or personal communication script, can not be accepted as a reference. Only the sources cited in the text appear in the reference list. The author's name should be written consistently. Number and volume of journal should be included. Editions, publishers, cities, and page numbers of textbooks should be included. Referrals downloaded from the internet, including access times and web addresses, should also be included. Abbreviations of journal names should be written in full. All research reports must have more than 10 references.
