# Indonesian Midwifery and Health Sciences Journal

---

e-ISSN : 2656-7806

Volume 6 No. 4, October 2022

Indonesian Midwifery and Health Sciences Journal (IMHSJ) aims to promote high quality Midwifery and Health Sciences Research to scientist and professionals.

Critical success factors to achieve these goals include:

- Maintain the highest quality standards.
- Attract international authors and promote Indonesian authors to publish high-quality Midwifery and Health Sciences research.
- Provide a timely manner editorial assessment of the submitted manuscript.

IMHSJ is published four times a year by Universitas Airlangga. Contributed papers must be original and offer a state-of-the-art contribution. Each manuscript will be reviewed by at least two independent reviewers in the relevant field ensuring the publication of only top-quality contributions. IMHSJ offer open-access license (CC-BY), authors retain the copyright. The journal publishes research articles and reviews articles in areas of Midwifery, Health dan Reproductive Sciences. The scope of this journal is the science of midwifery includes adolescent health, premarital and preconception, pregnancy, childbirth, postpartum and lactation, newborns, babies and toddlers, reproductive health, gynaecology, maternal emergencies, neonatal emergencies, contraception, family planning, menopause, policies health and midwifery services, midwifery education, management of midwifery care services, and community midwifery.
