GUIDELINE FOR AUTHOR

JURNAL ADMINISTRASI KESEHATAN INDONESIA (JAKI)

Jurnal Administrasi Kesehatan Indonesia (JAKI)/Indonesian Journal of Health Administration receives scientific works in the form of ORIGINAL ARTICLES, COMMENTARY, LITERATURE REVIEW, and LETTER TO EDITOR. The manuscript must be original and unpublished. If the manuscript is accepted for publication in JAKI, the submission of the manuscript shall not be permitted to publish the manuscript to other media.

The manuscript is typed on A4 size A-size HVS paper with 1 spaced space on 1 side (not back and forth) with approximately 7000-8000 words for original article, 2000-3000 for commentary, 7000-8000 for literature review, and 700 words for letter to editor. The font type used is Arial size 9 pt. Margin or border of writing from the edge of the paper 2.5 cm in all four sides. The script is typed in (2) two columns. You are not allowed to use footnote. The manuscript file is sent in MS Word format. The manuscript is written in English with Peffective and academic language. All incoming scientific articles will be judged by the editor-in-chief appointed by the editors.

The following are the types of manuscripts in the Indonesian Journal of Health Administration:

- A. Original Article** is a type of manuscript that presents data from research. It consists of Introduction, Method, Results and Discussion, Conclusion, References.
- B. Commentary** is a comment that critically addresses an issue of an article published in Indonesian Journal of Health Administration. It draws attention on the current issues and presume the future direction of a topic. Commentary is written using original data and stating personal opinion.
- C. Literature Review** explains a comprehensive summary of studies in specific topics, insights on the stance of the field and the orientation of the reviews presented. This type commonly cites lots of primary research articles in the field.
- D. Letter to Editor** is a response or opinion from readers about a current issue that attracts public attention. It encourages other readers to respond the other way around.

All references are managed using Mendeley software. The references are at least published 5 years back for journals and 10 years back for books. Every article should fulfill above guidelines and adjust to the journal's template before submitted to the Indonesian Journal of Health Administration. Further details about the organization of each types of manuscript can be accessed on <https://e-journal.unair.ac.id/JAKI/pages/view/GFA>.
