GUIDELINE FOR AUTHOR

INDONESIAN JOURNAL OF HEALTH ADMINISTRATION (*JURNAL ADMINISTRASI KESEHATAN INDONESIA*)

Indonesian Journal of Health Administration (Jurnal Administrasi Kesehatan Indonesia) receives scientific works in the form of ORIGINAL ARTICLES, COMMENTARY, LITERATURE REVIEWS, and SHORT COMMUNICATIONS. The manuscript must be original and unpublished. If the manuscript is accepted for publication in IJHA, then the submission of the manuscript shall not be permitted to publish the manuscript to other media.

The manuscript is typed on A4 size A-size HVS paper with 1 spaced on 1 side (not back and forth). Original and review articles are up to 4000 words (main text) with a structured abstract of up to 200 words and 30 references. Commentaries should be up to 1000 words with an unstructured abstract of up to 200 words and ten references. We also receive short communications, which should be up to 800 words long with only one table or figure, a structured abstract of up to 100 words, and five references. The font type used is Arial size 11 pt. Margin or border of writing from the edge of the paper 2.5 cm on all four sides. The script is typed in (2) two columns. You are not allowed to use a footnote. The manuscript file is sent in MS Word format. The manuscript is written in English with effective and academic language. The editor-in-chief appointed by the editors will judge all incoming scientific articles. The following are the types of manuscripts in the Indonesian Journal of Health Administration:

- A. Original Article** is a type of manuscript that presents data from research. It consists of Introduction, Method, Results and Discussion, Conclusion, References.
- B. Commentary** is a comment that critically addresses an issue of an article published in Indonesian Journal of Health Administration. It draws attention on the current issues and presume the future direction of a topic. Commentary is written using original data and stating personal opinion.
- C. Literature Review** explains a comprehensive summary of studies in specific topics, insights on the stance of the field and the orientation of the reviews presented. This type commonly cites lots of primary research articles in the field.
- D. Short Communications** is a response or opinion from readers about a current issue that attracts public attention. It encourages other readers to respond the other way around.

All references are managed using Mendeley or Zotero software with Harvard Reference Format 1 style. The references are at least published 5 years back for journals and 10 years back for books. Every article should fulfill above guidelines and adjust to the journal's template before submitted to the Indonesian Journal of Health Administration. Further details about the organization of each types of manuscript can be accessed on <https://e-journal.unair.ac.id/JAKI/GFA>.
