The Marketing Strategy of Madura Tourism Industry Area Trough Sustainable Development Based Gender	

EDITORIAL GREETINGS

It has been four years for Jurnal Ekonomi dan Bisnis Islam (JEBIS) to provide articles of Islamic economics. This June 2019, JEBIS finally releases the first edition of the 5th volume that contains six articles that have been through the profound review process and discussions. Thus, we would like to thank the authors, reviewers, and all JEBIS teams who have been worked hard.

From the beginning, JEBIS always hopes to contribute to developing Islamic economics. Specifically, in this edition, the highly discussed topics are Islamic finance and capital market; Islamic banking; management of Islamic business, entrepreneurship, and tourism; and Islamic social fund. It contains researchers about the reaction of Jakarta Islamic Index (JII) on governor election; the determination of nonperforming financing in Islamic bank; the analysis of an Islamic bank's product on the real sector field of micro, small, and medium enterprise (SMEs); the determination of *murabahah* margin rate in Islamic bank; the analysis of marketing strategy of the tourism industry through sustainable development based gender; and the identification of strategy in developing of cash *waqf*.

Finally, the articles that have been published are expected to help various parties—academics, practitioners, researchers, even the general public—in developing Islamic economics. Therefore, JEBIS is available for all authors who have valuable ideas in any field of Islamic economics. We are waiting for your contribution in the next edition. See you!
