Journal of Information Systems Engineering and Business Intelligence

Journal of Information System Engineering and Business Intelligence (JISEBI) aims to promote high-quality Information Systems (IS) research to computer scientists and IS professionals. Critical success factors to achieve these goals include:

- Maintain the highest quality standards.
- Attract international authors and promote Indonesian authors to publish high-quality Information Systems research.
- Provide a timely manner editorial assessment of the submitted manuscript.

JISEBI is published bi-annually by Universitas Airlangga. Contributed papers must be original and offer a state-of-the-art contribution. Each manuscript will be reviewed by at least two independent reviewers in the relevant field ensuring the publication of only top-quality contributions. JISEBI offer open-access license (CC-BY), authors retain the copyright.

The journal publishes research articles and reviews articles in areas of Information System Engineering and Business Intelligence. Information System Engineering is a multidisciplinary approach to all activities in the development and management of information systems aiming to achieve organizational goals. Business Intelligence (BI) focuses on techniques to transfer raw data into meaningful information for business analysis purposes to achieve sustainable competitive advantage. Areas of interest in Information System Engineering and Business Intelligence include but are not limited to the following topics: Management of Information Systems, IT Organizational Governance, Information Systems Theory and Practices, Data Analysis, Artificial Intelligence, Decision Support System, Computer Science, and Software Engineering

JISEBI has been Accredited by Directorate General of Research and Development Strengthening, Ministry of Research, Technology and Higher Education of the Republic of Indonesia with Peringkat 2 (SINTA 2) since the year 2016 to 2020 according to the decree number 21/E/KPT/2018 dated 9th July 2018. Indexed by Crossref, ROAD, Google Scholar, BASE, SINTA, Microsoft Academic, and Norwegian Centre for Research Data.

Journal of Information Systems Engineering and Business Intelligence

Volume 6 Number 2, October 2020

Table of Contents

Trends and Patterns of The Internet Use During School Holidays
Khalid, Indri Sudanawati Rozas, Dwi Rolliawati..... 89-98

Moving Object Detection Using Ultrasonic Radar with Proper Distance, Direction, and Object Shape Analysis
Angona Biswas, Sabrina Abedin, Md. Ahasan Kabir..... 99-111

Tweets Responding to the Indonesian Government's Handling of COVID-19: Sentiment Analysis Using SVM with Normalized Poly Kernel
Pulung Hendro Prastyo, Amin Siddiq Sumi, Ade Widyatama Dian, Adhistya Erna Permanasari..... 112-122

Booking Prediction Models for Peer-to-peer Accommodation Listings using Logistics Regression, Decision Tree, K-Nearest Neighbor, and Random Forest Classifiers
Mochammad Agus Afrianto, Meditya Wasesa..... 123-132

Smart Dissemination by Using Natural Language Processing Technology
Tora Fahrudin, Kastaman, Sherin Nadya Meideni, Padma Edhitya Chairunnisafa Priyono, Muhammad Galang Fathirkina, Samira..... 133-142

Thesis Supervisor Recommendation with Representative Content and Information Retrieval
Maresha Caroline Wijanto, Rachmi Rachmadiany, Oscar Karnalim..... 143-150

Dynamic Steganography Least Significant Bit with Stretch on Pixels Neighborhood
Muhammad Khoiruddin Harahap, Nurul Khairina..... 151-158

Information Privacy Concerns Among Instagram Users: The Case of Indonesian College Students
Eko Wahyu Tyas Darmaningrat, Hanim Maria Astuti, Fadhila Alfi..... 159-168
