VISION AND MISSION

Jurnal Medik Veteriner (JMV) with registered number pISSN 2615-7497 ; eISSN 2581-012X is a national journal published by Faculty of Veterinary Medicine, Universitas Airlangga and Indonesian Veterinary Medical Association (IVMA).

Jurnal Medik Veteriner (JMV) has been awarded SINTA 2 from the Director General of Higher Education, Research and Technology, Ministry of Education, Culture, Research and Technology, Republic of Indonesia Number: 225/E/KPT/2022, effective since December 7, 2022.

Jurnal Medik Veteriner (JMV) publishes original research, case reports, and review articles on the scope of veterinary medicine which are published 2 times a year, in April and October. This journal is contributed by practitioners, lecturers, researchers, students and volunteers in the field of veterinary medicine. Incoming articles will be processed by the editorial board and reviewers. The peer review process is carried out through the Open Journal System (OJS). Complete information about the process of peer reviewing articles and guidelines for writing articles is available on the website.

VISION

To become a leading and reputable journal at national and international levels in the field of veterinary science.

MISSION

1. Utilization of journals as a source of novelty and intellectual development for the academic community in supporting Universitas Airlangga World Class University;
2. Organizing accountable and quality journal management to improve the number of intellectual products;
3. Promote as excellent references and indexed on reputable databases.

Jurnal Medik Veteriner (JMV) publishes high quality and novelty papers focusing on Veterinary and Animal Science. The fields of study are anatomy, pathology, basic medicine, veterinary public health, microbiology, veterinary reproduction, parasitology, animal husbandry, and animal welfare. Food animals, companion animals, equine medicine, aquatic animal, wild animals, herbal medicine, acupuncture, epidemiology, biomolecular, forensic, laboratory animals and animal models of human infections are considered.

Language

Manuscripts submitted in Indonesian will be edited into English by our professional proofreaders.
