AUTHOR'S GUIDELINES

The author submit draft manuscript articles to the JMV editor through the open journal system (OJS). Draft manuscript articles typed using Microsoft Word programs, figures in a minimum JPEG format of 300 dpi. Figures are arranged on separate sheets and given sequence numbers and captions. The table is also typed on a separate sheet and numbered along with the table title.

The manuscript is typed using single-spaced with Times New Roman size font 12. Each manuscript does not exceed 8000 words or 20 pages of A4 size. The manuscripts are arranged according to JMV format in the following order:

A. Manuscript of Original Research

Title: Short, informative, and clear, written in capital letters except the Latin term or binomial nomenclature.

Author Identity: Full name (not abbreviated) without the title. If the author is more than one, with different affiliations, then behind each name is given an index of Arabic numerals. The author's address is written under the name of the author, including laboratories, institutions, and complete addresses with telephone/facsimile numbers and e-mail. An additional index (*) is given to the author who acts as the corresponding author.

Abstract: Abstract contains a summary of the manuscript, aim, brief method, result, and conclusion covering all manuscripts without specifying each part. Avoid using abbreviations. Abstracts include 3-5 keywords sorted according to their importance.

Keywords: first, second, third

Introduction: Contains the scope, background of the problem, research contributions, and research implications. This section should provide background and statement of the problem so that the reader can understand and assess the results of the study without reading previous reports relating to the topic. Provide literature that can support discussion.

Materials and Methods: Describe in detail and clearly the design of the study, the number of samples, the treatment method, the materials used, and the method of work carried out, including statistical methods and an explanation of the animal's ethical behavior certificate if necessary. The work methods submitted must contain enough information to enable the study to be repeated successfully.

Results and Discussions: Presented jointly and discussed clearly the results of the study. The results of the research can be presented in written form in a script, table, or picture. Reduce the use of graphics if it can be explained in the text. Limit the use of photos and present photos that clearly describe the results obtained. Pictures and tables must be numbered and quoted in the text. Photos can be sent in JPG, JPEG, and PNG formats. The result of processing data is sent in a file separate from the scientific script file and accompanied by the name of the program and basic data for compiling the graph. The discussion presented should contain an interpretation of the results obtained and the discussion relating to previous reports. Avoid repeating statements that have been conveyed to methods, results, and other information that has been presented in the introduction.

Conclusion: Must be specific, clear, and answer the problem. Presented separately from the results and discussion.

Acknowledgments: Aimed at those who fund research and acknowledge institutions and individuals who have helped research or scientific writing processes.

References: Alphabetically sorted by name and year of publication in APA Style format. Journal abbreviations are based on the procedure used by each journal. Reference composition, i.e. 80% of

journals and 20% of textbooks, others. The latest level of up to 10 years is recommended. Example of reference writing:

Journal:

Cheng, Q., & Sun, D. W. (2018). Factors affecting the water holding capacity of red meat products: a review of recent research advances. *Critical reviews in food science and nutrition*, 48(2), 137-159.

Book:

Rahmaningtyas, I. H. (2018). Aktivitas Antibakteri Ekstrak Kloroform Daun Sirsak (*Annona muricata L.*) Terhadap Pertumbuhan Bakteri *Pseudomonas aeruginosa* Secara In Vitro. [Skripsi]. Fakultas Kedokteran Hewan. Universitas Airlangga. Hal: 87.

B. Case Report, Review Article, and Letter to Editor

Manuscripts are written not exceed 3000 words or 6 pages are included in Figures and Tables.

Preparation of manuscripts for Title and Identity of the author as same as the guidelines of original research.

Abstract: Consisting of at least 100 words and a maximum of 250 words

The composition of the manuscript includes an Abstract, Introduction, Material and Methods, Results and Discussion, Conclusion, Acknowledgments, and References.

- Manuscript submission must be accompanied by a letter of originality which can be downloaded on the website. The letter must clearly state the author who can be contacted, complete mailing address, and telephone number. The correspondence author is responsible for the originality of the research and the contents of the manuscript. All authors must have approved the contents of the submitted manuscript.
- Processing articles are charged to the correspondence author in the amount of IDR.500,000,- or USD.75. If it is a color page, the issuance fee is IDR.550,000,- or USD.100. Authors can send article processing or subscription fees via transfer to one of the following bank accounts:
