AUTHOR'S GUIDELINES

The author submit draft manuscript to the JMV editor through the open journal system (OJS). Draft manuscript typed using Microsoft Word programs, figures in a minimum JPEG format of 300 dpi. Figures are arranged on separate sheets and given sequence numbers and captions. The table is also typed on a separate sheet and numbered along with the table title.

The manuscript is typed using single-spaced with Times New Roman size font 12. Each manuscript does not exceed 8000 words or 20 pages of A4 size. The manuscripts are arranged according to JMV format in the following order:

A. Manuscript of Original Research

Title: Short, informative, and clear, written in the Capitalize Each Words letters except the Latin term or binomial nomenclature.

Author Identity: Full name (not abbreviated) without the title. If the author is more than one, with different affiliations, then behind each name is given an index of Arabic numerals. The author's address is written under the name of the author, including laboratories, institutions, and complete addresses with telephone/facsimile numbers and e-mail. An additional index (*) is given to the author who acts as the corresponding author.

Abstract: An abstract includes a purpose, a brief method, a result, and a conclusion that covers the entire study. Abbreviations should not be used without definition.

Keywords: Include 3-5 keywords according to alphabetical order

Introduction: The scope, problem background, study contributions, and research implications are all included in the introduction. In order for the reader to comprehend and evaluate the study's findings without having to read earlier studies on the subject, this part should give background information and a problem description. Include references that can support discussion.

Materials and Methods: Describe a clear and comprehensive explanation of the study's design, sample size, treatment method, materials used, parameter evaluation methods, and methodology. You should also include any essential statistical methods and an explanation of the animal's ethical behavior certificate. In order to facilitate a successful replication of the study, the work methods supplied must include sufficient information. **Ethical Approval:** If your study uses experimental animals, an ethical statement accompanied by a certificate number is mandatory. If your study does not use experimental animals, also explain this in this section. **Study Period and Location:** Describe the period and location of sampling, evaluation, laboratory and analysis for this study.

Results and Discussions: Research findings are presented and discussed in detail. Written research findings can be displayed as a paper, table, or figure. If a visual can be explained in the text, use less of it. Restrict the amount of photos you utilize, and only show images that amply demonstrate the outcomes. Tables and figures need to be numbered and cited within the text. Photos in PNG, JPG, and JPEG formats. The name of the program and the necessary data to create the graph are delivered with the data processing results in a different file from the manuscript file.

Conclusion: A precise, understandable conclusion that addresses research issues is required. Presented independently of the findings and discussion.

Acknowledgments: Aimed at research funders and acknowledging organizations and people that have supported scientific writing or research methods.

Authors' Contributions: Mention the assignment of each author as Conceptualization; Methodology; Software; Validation; Formal analysis; Investigation; Resources; Data Curation; Writing - Original Draft; Writing - Review & Editing; Visualization; Supervision; Project administration; and Funding acquisition.

References: Alphabetically sorted by name and year of publication in APA Style format. Reference composition, i.e. 80% of journals and 20% of textbooks, others. The latest level of up to 10 years is recommended. Example of reference format:

Journal:

B. Case Report, Review Article, and Letter to Editor

Manuscripts are written not exceed 3000 words or 6 pages are included in Figures and Tables.

Preparation of manuscripts for Title and Identity of the author as same as the guidelines of original research.

Abstract: Consisting of at least 100 words and a maximum of 250 words

The composition of the manuscript includes an Abstract, Introduction, Material and Methods, Results and Discussion, Conclusion, Acknowledgments, and References.

- Manuscript submission must be accompanied by a letter of originality which can be downloaded on the website. The letter must clearly state the author who can be contacted, complete mailing address, and telephone number. The correspondence author is responsible for the originality of the research and the contents of the manuscript. All authors must have approved the contents of the submitted manuscript.
- Processing articles are charged to the correspondence author in the amount of IDR.1.500,000,- or USD.100. The publication fee must be transferred to the one of bank accounts below:
