#### 1. DESCIRPTION

Journal of Vocational Nursing (JoViN) provides a forum for original research. It publishes scientific articles such as case studies, literature/systematic reviews, and research reports related to nursing and other health professions. Registered number e-ISSN 2722-7251 (online) and p-ISSN 2775-0280 (print). The manuscript's JoViN submission process is published twice a year (May and October) under the auspices of the Program Study Diploma III of Nursing, Department of Health, Faculty of Vocational Studies, Universitas Airlangga. We welcome all experts, practitioners, and academicians to submit their articles. All submitted manuscripts will go through a double-blind peer review before being granted acceptance for publication. Submissions must be original work and have never been previously published.

Journal of Vocational Nursing (JoViN) has been accredited by the National Journal Accreditation (ARJUNA) by the Ministry of Education, Culture, Research, and Technology of the Republic of Indonesia with the category of SINTA 4 (based on the Decree of the Director General of Higher Education, Research, and Technology Number 79/E/KPT/2023).

#### 2. FOCUS AND SCOPE

#### **DISCUSSION (Myriad Pro 10)**

Describe the significance of your findings. Consider the most important part of your paper. Do not be verbose or repetitive, be concise and make your points clearly. Follow a logical stream of thought; in general, interpret and discuss the significance of your findings in the same sequence you described them in your results section. Use the present verb tense, especially for established facts; however, refer to specific works or prior studies in the past tense. If needed, use subheadings to help organize your discussion or to categorize your interpretations into themes. The content of the discussion section includes: the explanation of results, references to previous research, deduction, and hypothesis.

# **CONCLUSIONS (Myriad Pro 10)**

Conclusion should be explained clearly related to hypothesis and new findings. Suggestion might be added contains a recommendation on the research done or an input that can be used directly by consumer.

# **ACKNOWLEDGEMENTS (Myriad Pro 10)**

Acknowledgements are addressed to people or institutions that have made important contributors to the

implementation of the research (lenders, data source providers, research materials, research facilities, etc.), but not to the author team. At the end, the author must include a statement that there is no conflict of interest.
AUTHORS' CONTRIBUTIONS (Myriad Pro 10)  Author Contributors The contributions of each author, including ideas, data generation, data analysis, manuscript preparation, and funding, should be listed here using only their initials, for example, Ar. Pe. Fa.
