### **1. DESCRIPTION**

Journal of Vocational Nursing (JoViN) provides a forum for original research. It publishes scientific articles such as case studies, literature/systematic reviews, and research reports related to nursing and other health professions. Registered number [e-ISSN 2722-7251](#) (online) and [p-ISSN 2775-0280](#) (print). The manuscript's JoViN submission process is published twice a year (May and October) under the auspices of the Program Study Diploma III of Nursing, Department of Health, Faculty of Vocational Studies, Universitas Airlangga. We welcome all experts, practitioners, and academicians to submit their articles. All submitted manuscripts will go through a double-blind peer review before being granted acceptance for publication. Submissions must be original work and have never been previously published.

Journal of Vocational Nursing (JoViN) has been accredited by the National Journal Accreditation (ARJUNA) by the Ministry of Education, Culture, Research, and Technology of the Republic of Indonesia with the category of [SINTA 4](#) (based on the Decree of the Director General of Higher Education, Research, and Technology Number [79/E/KPT/2023](#)).

### DISCUSSION (Myriad Pro 10)

Describe the significance of your findings. Consider the most important part of your paper. Do not be verbose or repetitive, be concise and make your points clearly. Follow a logical stream of thought; in general, interpret and discuss the significance of your findings in the same sequence you described them in your results section. Use the present verb tense, especially for established facts; however, refer to specific works or prior studies in the past tense. If needed, use subheadings to help organize your discussion or to categorize your interpretations into themes. The content of the discussion section includes: the explanation of results, references to previous research, deduction, and hypothesis.
