IDR. 200.000,- for each copy

INTRODUCTION TO THE EDITOR

Media Gizi Indonesia (MGI) / National Nutrition Journal is a scientific journal published regularly every 4 months that provides articles regarding the research and the development of nutrition knowledge including community nutrition, clinical nutrition, institutional nutrition, food service management, food technology, and current issues on food and nutrition. Media Gizi Indonesia tries to always present a variety of scientific articles in the scope of Nutrition and Health.

This issue provides original research in the field of nutrition across the human life cycles. In the recent years, study on the development of functional foods based on local resources to overcome nutritional problems are more prominent. This edition covers five reports on the effectiveness of functional local food to improve nutritional problems. Topics related to diet recommendation for kidney disease as well as determinant of vitamin D status are also covered in this issue. In addition, topics related stunting was also covered considering Indonesian effort in alleviate stunting reduction. The contributing authors address the impact of nutrition intervention among children, adolescents and also pregnant women.

We do hope MGI scientific journals can leverage the development of writing culture and communicative scientific studies as well as attract readers and writers to participate in MGI for future issues. Media Gizi Indonesia / National Nutrition Journal will maintain its role in providing current, relevant, and topical issues in food and nutrition. Hopefully, the works displayed by MGI can provide benefits and enrich the readers' knowledge.
