IDR. 200.000,- for each copy

INTRODUCTION TO THE EDITOR

Media Gizi Indonesia (MGI) is a scientific journal published regularly every 4 months that provides articles regarding the research and the development of nutrition knowledge including community nutrition, clinical nutrition, institutional nutrition, food service management, food technology, and current issues on food and nutrition. MGI also publish special issues from conference like in this issue which were the output from the 2nd Bengkulu International Conference on Health (B-Icon) 2022 held in Bengkulu, November 2022. Media Gizi Indonesia tries to always present a variety of scientific articles in the scope of Nutrition and Health.

This volume provides original research in the field of nutrition. The theme for original research varies from child nutrition, adolescent health, and elderly nutrition. To date, child and adolescent nutrition has become more attention because a good nutritional status in that period will manifest a better quality of life during adults and elderly period. For that, this current edition of MGI presents several best research related to child and adolescent nutrition in relation to anemia, preschool children development, and dietary intervention. Besides presenting studies related to child and adolescent nutrition, the current edition of MGI also shows research in food product development to provide better food product in order to alleviate nutritional problems.

We do hope MGI scientific journals can leverage the development of a writing culture and communicative scientific studies as well as attract readers and writers to participate in MGI for future issues. Media Gizi Indonesia will maintain its role in providing current, relevant, and topical issues in food and nutrition. Hopefully, the works displayed by MGI can provide benefits and enrich the readers' knowledge.
