## Preface

Dental Journal (Majalah Kedokteran Gigi) is proud to be one of certified scientific journals by The Ministry of Research and Technology and National Research and Innovation Agency. We have been publishing since 1968. We are supported by Indonesian and International editors. Quality is always maintained in order to provide our readers with update scientific information. With the spirit and vision to be an internationally indexed journal, Dental Journal (Majalah Kedokteran Gigi) is published in English and now available both print and online. Starting from 2021, we have made updates related to the classifying of scientific articles that we publish. We classify these into **Original Articles, Case Report and Review Articles**. The classification will be included in the table of contents for each edition according to the published article and become an option during the submission process as well as a template for updating the manuscript that we provide. As detailed further information can be accessed on our online journal portal. We would also like to acknowledge generous supports from the Dean & Vice Dean of Faculty of Dental Medicine Universitas Airlangga; The Institute of Innovation, Journal Development, Publishing and Intellectual Property Rights Universitas Airlangga; and National Scientific Journal Reviewer Board of The Indonesian Ministry of Education.

Best Regards,  
Chief Editor

Muhammad Dimas Aditya Ari, drg., M.Kes
