GUIDELINES FOR AUTHOR

SURABAYA PHYSICAL MEDICINE AND REHABILITATION JOURNAL

Surabaya Physical Medicine and Rehabilitation Journal provides a forum for publishing the original research articles, case reports, literature review articles from contributors, and the novel technology news related to physical medicine and rehabilitation including neurorehabilitation, musculoskeletal and sport, geriatric and pain, cardio-respiration, pediatric, and miscellaneous.

The official language of the manuscript to be published in SPMRJ is English. All papers submitted to the journal should be written in good English. Authors for whom English is not their native language are encouraged to have their paper checked before submission for grammar and clarity. English language and copyediting services can be provided by International Science Editing and Asia Science Editing. The work should not have been published or submitted for publication elsewhere.

A. MANUSCRIPT PREPARATION

1. Manuscripts should be typed on A4 size paper in clear, concise Indonesian or English, double-spaced. Authors are requested to reserve margins of at least 2.5 cm all around the paper. **Original drawings of photos, tables and figures should be furnished together with the manuscripts.**
2. Manuscripts should be kept to a minimum length and should be subdivided into labeled sections: **Title page, Abstract, Keywords, Introduction, Materials and Methods, Results, Discussion, Conclusion, Acknowledgment, and References.**
3. **A title page** is to be provided and should include the title of the article, authors' names with full first name (without degrees), authors' affiliation, suggested running title and corresponding mail. The affiliation should comprise the department, institution (usually university or company), city and state (or nation).
4. The suggested running title should be less than 50 characters (including spaces) and should comprise the article title or an abbreviated version thereof. For office purposes, the title page should include the name and complete mailing address, telephone and fax number, and email of the corresponding author.
5. An **abstract no longer than 250 words** for reviews and research articles is to be provided as the second page. Abstract should be **structured as background, aim(s) (including purpose setting), materials and methods, results, and conclusion.** The abstract of the review articles are not structured.
6. **A list of 5-8 keywords**, chosen from the Medical Subject Headings (MeSH) list, is to be provided directly below the abstract. Keywords should express the precise content of the manuscript, as they are used for indexing purposes. Provide keywords list in an alphabetical order separated by commas in italic font.
7. Tables in limited numbers should be self- explanatory, clearly arranged, and supplemental to the text. The captions should be placed above.

8. Figures should be utilized only if they augment understandability of the text. The same data should not be presented in tables, figures and text, simultaneously. The captions should be placed below. Drawings and graphs should be professionally prepared with a minimum resolution of 300 DPI. In a figure or table, define the abbreviations used in a footnote.
9. Authors should disclose, at the time of submission, information on interests that may influence the manuscript results and conclusions.
10. Acknowledgment: Acknowledgments, sponsorship or grants should be written after the main text and before the references.
11. References in limited numbers and up-to-dated must be numbered consecutively in order of citation in the text (***number in parentheses***), see **Vancouver style references guideline**. Print surnames and initials of all authors when there are six or less. In the case of seven or more authors, the names of the first six authors followed by et al. (Italic). should be listed.

Below are some examples of how to cite sources within the text of your paper:

- a. Mullan¹ described narration as...
